A Robber Caught in his own
Trap.
The following singular case of robbery is reported in the Bordeax Indicator:
"A women employed as housekeeper at the chateau of Ludon, near the city, recently inherited a sum of 800 francs. A peasant employed to take care of the grounds of the bateau, hearing of her good fortune, determined to possess himself of the money. Ac ordingly, a few months ago, the owner of the chateau and all the servants being absent, he got the woman on some pretext to sent, he got the woman on some pretext to visit him at a room which he occupies in one of the dependencies of the chateau. Af-ter a while he locked the door, and with the most dreadful threats declared that he would murder her unless she at once gave him the 800 frames. The woman, being seriously alarmed, took him to her chamber, and gave him the money. The man then declared that he must murder her to prevent declared that he must murder her to prevent her from accusing him, and he commanded her to say what kind of death she would prefer. The poor woman prayed for mercy, but he premptorily told her that she must either die by rope or by the knife, and she at last selected hanging. The man then tied her hands behind her back, and fastened her to the bedstead. He afterwards mounted a chair to fix the rope to a beam, and made a running noose at the end.—Having duly fastened the rope, he put his arm into the noose to see if the latter would slip well: at that moment the woman, with slip well; at that moment the woman, with great presence of mind, gave a violent kick to the char, which fell, and the man remainsuspended by the arm. He roard for help, and the woman cried out 'murder;' but there was no one but themselves in the chateau or its dependencies, and they were not heard. They accordingly remained in their respective positions, the man suffering dreadial agony, until marning, when their cries attracted the attention of the laborers. These men, on hearing the woman story, re-leased her, but left the man suspended until they could summon a migistrate. The rinctionary had the man cut down, and after receiving the woman's deposition, caused him to be sent to prison to await his trial for the robbery."

The Waverley Novels.

Every kind of Literature has its golden age, in which it is not only generally eared for having the widest circulation, but in which it also culminates in a single author, one who says on paper all there is to be said in that way. The age of Elizabeth was the golden age of the English Druma, and Shakespeare in that age wrote all that the English language can express in the Dramatic form. That is, he is and must be forever, either the complete artist or he fornishes the ground plan of every thing possible to the English Drama.

Our time is without doubt most marked in Literature, asfar as creation is concerned. by works of fiction. This is the golden age of the novel. All the possibilities of the art of novel writing have been exhaused withing the the last fifty years.

The Novel during this period has been crowded with all the truth, beauty and interest it can be made to hold.

During this period also this kind of Literature has come to a climax in a single author. And the Waverley Novels of Walter Scott will forever have the same relation to Fiction in the English language as the plays of Shakespeare have to the Drama. Other writers may have done single things better (than Scott, as there are individual characteristics better or more fully brought out by other dramatists than Shakespeare. But when we consider the whole range and the harmony of character possible to the novel, no man whose oninion is worth having ean differ from the universal judgement of the reading world, that Scott has done all that can be done in fiction.

This point is now settled beyond argument. As Washington Irving well says, "The works of Walter Scott have incorporated themselves with the thoughts and concorns of the whole civilized world, for more than a quarter of a century, and have had a controlling influence over the age in which

It is a little remarkable that with this high character, the most perfect of that kinds of literature which nobody does without, we have never, until the present time had any American edition of these novels, exhibiting more than decent taste. Such reprints as have been issued here, have always found ready sale and readier readers.

But now for the first time we find upon our table a vulume whose intire appearance assure us at a glance that here is a dress worthy the immortal Waverley.

We refer to the Household Edition o Scatts' navels now in process of publication by Ticknor and Fields of Boston, whom the public have to thank for so many valuable banks.

The publishers in this edition promis us the whole of the Waverly novels in 48 volumes of portable size in 16 mo. form. The paper is of the finest quality. The type has been east expressly for this work. Each volume will contain the last revision and notes of Scott, in his last days. The Novels are illustrated with steel plates, after the drawings of most eminent artists.

The two vols, now before us containing Scott's celebrated Introduction written after he acknowledged himself as author and the first novel, Waverley from which the whole have been called, contains an exquire picture of Scott himself, a fine moonlight scene "The Hold of the Highland Robber," and a full length picture of "Fergus MacIvor."-In a word, there could be nothing more per_ fect in the form of the vols, in the size and clearness of type, and in the quality of the paper than this Household Edition of Way-

The first novel, Waverley has just been issued, in two volumes at the low price of a month until the series is completed. The publishers make all booksellers agents throughout the United States and Canada. In Newport our enterprising neighbor A. J. Ward has made special ar-

the earliest possi le day of publication. It is always best to know one thing well and let any one who wants the most exquisite and the most healthy enjoyment to behad from works of Fiction spend the very moderate sum of thirty seven and a half cents a week and a weeks of evenings in a month in reading, and thereby put upon his book shelves the greatest works of fiction ever written and into his head such a knowledge of the true Novel as shall make him a

wiser and heartier man. LECTURE THIS EVENING .- Let no one who wants to hear the greatest American Philospher fail of being at Aquidneck Hall this evening to hear Ralph Waldo Emerson discourse upon the" Conduct of Life." Every one who hears Mr E. will be sure to find something to admire and almost everybody will have something to find fault with, while all will get a deeper insight into the mystery and reality of Life.

Rotation in Office. It is undertood that a dispatch was received in this City vesterday conveying the intelligence of the appoinment of Mr. Atkinson as Postmaster in place of Mr. Joslyn, the present incumbent. Although we dislike to part with public officers whe have proved themselves worthy of their trust, yet when we are sure of having in their stead those who will find a pleasure in consulting the public good in their official managements, we are not disposed to complain when changes are made.

We have no doubt Mr. Atkinson will manage the affairs of the Post Office with credit to himself and fidelity to the public.

Republican Meeting.

A meeting of the Republican electors was holden at the State House, on Thursday evening, March 26, 1857. The meeting was called to order by Oliver Read, Esq. when James A. Greene, Esq., was closen Chairman, and Wm. Gilpin, Esq., Secretary, Wm. P. Sheffield, moved that a com-

RESCUE OF A WHALING CREW,-New York, March 25.—A letter from St. Helena, dated Feb, 19th, says:—The British steamer England, which arrived at this port steamer England, which arrived at this port on the 9th, from Cape Good Hope, reports that on Jan. 21st, when in lat. 31 50 south, lon. 30 20 east, having picked up a raft with Capt. Baker and one scaman, being the sole survivers of the American whaling bark Henry H. Crapo, capsized in a heavy squall on the night of Jan. 19th. Twenty of the crew are supposed to be drowned. Capt. B. and the seaman were landed at the Cape of Good Hope. The Henry H. Crapo sailed from Dartmouth, June 12th, 1854, and it the last accounts from ber hed early and at the last accounts from her had on board 715 barrels sperm oil. She was of 199 tuns burthen, and owned by Tucker & Cummings of Dartmouth.

DEATH BY LOCK-JAW.-Samuel Bull eighteen years of age, son of John Ball, of New Shoreham, died in Bristol, on Friday evening lust, of lock-jaw. He was in the employ of Josephus Gooding, and some ten days since, while employed in chopping wood, he cut the great toe on his right foot very hadly. He laid by for two or three tlays, but not suffering any pain, and but little inconvenience from the wound, he went to work. He wet his feet, and soor after was taken with severe pain in his back Spasnis subsequently set in, his jaws became locked, and after lingering in great agony from Wednesday to Friday evening, death terminated his sufferings.—Prov Post,

FIRE AND LOSS OF LIEE.—At Brownsburg. Canada, on the 15th inst., the house of Mr. James Hendric was destroyed by fire, and both Mr. Hendric and his wife perished in the flames. The remains of the bodies, reduced to a cinder, were found in the cellar. A daughter escaped by jumping from her chamber window, a distance of 16 feet.

DEATH SENTENCE UPON a Lan OF SIX. THE LONDON. (Canada) Prototype says, that James M'Garrie, aged sixteen, was tried for the murder of William Cull, a youth ten years old, at the Guelph assizes, on the 11th inst., and was sentenced to be excented on the 11th of April. The murderer committed the deed by knocking him down with a bottle, and aftewards cutting his throat with a piece of it,

The Mational Hotel Epidemic. ST. DENIS HOTEL, March 21st. To the Editor of the Evening Post :

I have just read an article in this even-ing's Post, in which great injustice is done to the proprietors of the National Hotel, rangements to receive the successive vols. at

Washington.
Soon after the cpidemic began to prevail the proprietors made every effort to ascer-tain its cause. An expert chemist was em-ployed to analyze the water, milk, and other articles of food, into which poison might have been introduced. No trace of metalic poison could be detected in any of these elements of daily food. I enclose you a paper containing the result of these chemient investigations. The water used at the National Hotel can have nothing to do with Autonal Hotel can have nothing to do with this disease; it is brought through closed tubes from Capitol Hill, and is perfectly free from noxious qualities. I have been drisk-ing it all winter, and it has not poisoned me. I have been practising medicine at Wash ington, and last winter had many cases of the National Met. I minumical light and the prothe National Hot 1 epipemie. In my opinion the disease arises from a vitinted air, occasioned by an imperfect system of sewer-age. I escaped the disease until I went dowr into the cellar of the house and snuffed up some of this bad air; I went in search of the cause and found it, for in six hours after my visit below I was attacked with all the characteristic symptoms of the provailing ill-Those gentlemen who were made ill by

partaking of a single meal at the house sim-ply partook of meat infected by the noxious air of the apartment in which it had lain for some hours before being cooked.

The proprietors of the house did all in their power to ascertain the cause of the disease, and to remove it. By introducing s better system of sewerage, by freely ventilating the house, and the liberal use of disinfecting agents, I helieve they will succeed in rendering the house as healthy as ever. Respectfully, your obedient servant, W. ARGYLE WATSON, M. D.

From Washington.
(From the N. Y. Tribune.)
I consider it fixed that Geary will not return to Kansas, but that an offer of some other post will be made to him, as to Reed-er, and spurmed as in that cese. I consider it nearly certain that Robert J. Walker, of Mississippi, will succeed to the Governor ship of Kansas, putting her afflicted people completely under the feet of the border-ruffian usurpers. Nothing can now save her but a united and indignant uprising of the Free States. There is no other ground

Walker was offered the Governorship, but made the providing for of Sanders a condition. Sanders to-day has received the condition. Sanders to-ony has received the appointment of Navy Agent at New York. Walker may, therefore, be considered appointed. Yet, until the official announcement of Gov. Geary's resignation being accepted, it cannot be positively asserted.

Noofficial announcement has yet been made

Noilicial announcement has yet been muce The New York appointments have created much excitement and bitterness of feeling among the defeated taction. The Hon, Fernando Wood, who got an inkling of the purpose of the Administration last night, and this morning denounced Mr. Buchanan in yaqualified largus and saving he would in unqualified terms and saying he would not walk on the same side of the street.

Air. Sche I's appointment is mainly attributable to the persistent support of Mr. Secretary Cobh; and, with those of Hart, Sanders and Company, is a distinct recognition of the national wing of the party and an entering wedge for further divisions.

Since this result was announced, crowds

have deserted the city, and there is a pros-pect now that public business will receive

some share of consideration.

Although an attempt will be made to contradict the report of Appleton's retirement from The Union, the fact is well understood here by those most concerned. Mr. Banks, editor of The South Side Democrat, of Va., is urged as principal or assistant editor of the paper, by an interest seeking to control it.

The Administration will probably confirm the bright and the side of the side

the titles to sales of Indian lands in Kansus and thus make the fortunes of the officials there. Isaacs, late District Attorney in the Territory, is here for that object.

Gov. Geary was in town direct from Kansas, and remained over night, when he took the cars for Washington During his short stay he was called upon by a large number of our citizens and members of the Legislature, who were cordially re-ceived by him, and to whom he related ceived by him, and to whom he related the condition of affairs in Kansas, which he represented as deplorable. The government, he says, is entirely in the hands of the horder rullians, and no power but the military arm of the general governeneral govern-He has no ment can control them. doubt, he says, that if a fur expression of the opinion of the actual bona fide set-tlers could be had, two-thirds would be found favorable to the territory being free But that fair a expression of the the voice of the people cannot be had.

The Governor is accompanied by his

private Secretaey, John Gihon, of Philadelphia, who has been constantly by his side, and he gives also a most deplora-ble account of the state of affairs in Kansas. He says that John W. Jones deserves the thanks of all the good citizens of the United States for shooting Sherra re who was the most desperate border ruffian in all that section of the country -He bragged openly that he would, as soon as he could rece we his commission as sheriff, crush out all the free State men. man Sherrard was a noted leader of a band of men who had sworn to extin-guish every man hailing from a free State. If Jones had not killed Sherrard at the time he did, he would have been killed by Sherrard himself. A CARD TO THE LADIES.

Dr. Dupono's Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficacious in correcting, egulating, and removing all obstructions from whatever cause.

All medical men know, as well as many others, that no female can emjoy guod health, unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headacher Pain in the Side, Palpitation of the Heart, Loathing of Food, and Disturbed Sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils; and may always be used successfully as a preventive. Price \$1,00 per box. For said by HAZ.

PATENTED, BEFT. 18, 1866.

SIE:

Herewith you are presented with a list of sizes with the price of each annexed, of BROWNELL'S PATENT VENTILATOR for all purposes where vestilation and a strong draft are required; and are particularly de signed for RAIL ROAD CABS, PUBLIC HULLDINGS, SNOKEY CHIMNINS, and CABOOSE and CABOOSE

CARIN PIPES.

The advantage proposed by this ventilator over all others is, it gives a uniform draft to a chimney, and at the same time excludes water thus doing away with two great evils—a back that and drippings down the chinney. The arrangement of the ventilator is very simple; it can be easily adjusted to any use for which it may be required, and it is not liable to get out of order.

LOTTERIES.—The well known Mary
Lind Consuldated Lotteries, of which R
France & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to
superintend and certify that excrything connected with them is done in a strictly honorable
manner, and that the interests of parties who
reside at a distance are as well protected as if
they themselves were present at the drawing.
Another fact which the managers call attention to, is, that all persons have a legal right
to send orders for tickets to Maryland, as
lotteries are legalized by special law in that
state. A lottery is drawn every day in the
month. If no particular class is named, orders
are filled in the first drawing to take place
after the communication comes to hand. Thel
prices of tickets vary from \$1,00 to \$29.—
No tickets however, sent unless the monmoney for the same is received with the order.
The drawings are upon the principle of one
number on each ticket (after the Havana
plan), and Ternary combination. Prices vary
in amount from \$20 to 1000,000, All orders for
tickets or packages will receive prompt attention, and the drawing mailed to all purchascrs immediately after it is over. Address

THE GREATEST WONDER OF THE AGE.

PRATT'S LIGHTNING RODS—With branched and other points made of pure copper and gilded with fine gold, all of which are warranted to preserve the extremity sharp and bright. Eight times as good a conductor as a spurious imitation made of cast iron, and sold last year by some dealers in lightning ruds.

Also, fixtures for a new and valuable improvement in applying insulators by which the glass is kept dry, causing no leaks in roofs of buildings, and effectually preventing the electrical fluid from being conducted by iron screws and drives into the seam.

The following recommendations have been furnished gratuitously:

Louisville, Jan. 27, 1851.

The Lightning Conductors on the plan of J. Spratt, of Cincinnati, appear to be very well devised, and in point of mechanical construction, are the best I have ever seen.

It is to be heped that the use of these rods may become general as an important auxiliary defence against a danger which must be regurded as of no ordinary magnitude, to which all buildings are liable. B. SILLIMAN, Jr.

Prof. of Chem. in the Univ. of Louisville

This will certify that I have examined the Lightning Rods, Mctallic Points, and Insulating Attachments, manufactured by Mr. Spratt, of Cincinnati, Oltio, and regard them as constructed in conformity to the general laws of the electric fluid; and the Gilded Capper, Branched Points, as promising, from the results of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.

Bostun, March 20, 1856.

Prof. Wood—Dear Sir—Having become prematurely quite gruy, I was induced some 6 weeks since, to make a trial of your Hair Restorative. I have used less than two bottles, but the gray hairs have disappeared; and although my hair has not fully attained its original color, yet the change is gradually going inal color, yet the change is gradually going on, and I have great, hopes that in a short time my hair wall be ast dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which, before was larsh and dry, and it has ceased to come out as formerly.

Milford, Worcester Co., Mass., Nov. 13th, 1855.

Prof. O. J. Wood—Dear Sir—I take pleasure in hearing voluntary tostimony to the magic effects of your wonderful Hair Restortive. As far back as 1850 my hair commenced falling off until the top of my scalp became build and smooth as glass, and it has continued to fall off for a great many years, notwith standing I have used many celebrated preparations for its restoration. Seeing your advertisement I was induced to give your article at trial, and to my utter astonishment I found after a few applications that my hair became firmly set and inssured by very glossy and heautiful appearance; and at the time I had used a quart bottle, my bald head was cover ed over with a young and vigorous growth or hair, which is now from one to two inches in tength, and growing very fast.

THE GREATEST WONDER OF THE AGE.

A REMEDY which CURES IN FIVE A MINUTES.—M. LEROUX'S French Cholera Cognac Bitters. This truly wonderful scientific compound is recommended by the soot minent and learned physiciaus of all Europe and America, and enjoys the best reputation of anything similar ever offered. It is without doubt, the best most efficient and generally ekinowledged remedy against cholers, dysentery, diarrhoen, and complaints of the atomach in general. The numerous patients who have tried it according to directions have invariably found relief in a very short time, and the best proof of it is, that since this standard remedy was introduced in the armies of the Allies in the Crimea, the mortality of the soldiers from cholera and similar diseases was diminished by over 76 per cent; in consideration of which, the inventor was presented by the French and English governments with a gold medal, bearing the inscription, "Hail! M. Leroux, the great chemist and inventor, by whose knowledge our armies are preserved from cholera."

This invaluable preparation is also a remedy for billiousness, indigeation, weakness, and general derangement of the stomach. Upon being taken, it creates appetite, and prevents the heaviness attendant upon eating by persons who are dyspeptic.

In this city, also this romedy has been tried with the most undoubted success, and the undersigned can produce the best testimonials of our most celebrated physicians, as to its immediate and complete success, which he will be happy at any time to show to any that may wish to see them.
